Lorenz,

Sorry, I didn't specify exactly what I wanted to know, so here is clarification:

1. Specifically, I am looking for current email address for all current board members. I suggest you ask them at the meeting. They are volunteers.
2. I would also like to know if you filed a report with the police for the dumping in the alley by Eric's Eisenberg's employees that I provided you with documentation of, and if the police took any action against these individuals. They were not Eric's employees and yes, I gave the information to Officer Nua.

Lorenz,

I am looking for email addresses for the members of H2O.

You may know me as the individual that took great offense to the Not Inport Nights event I'm trying to prevent it from returning to San Pedro.

My current project is trying to remove Eric Eisenberg into providing sufficient dumpster capacity in the alley next to the Cabrillo Hotel.

In spite of the documentation I have provided him, he doesn't seem to think there is a problem... except for people that haul large items and drop them next to his dumpster.

I recently have been trying to document the large item drops and so far, the only people I have found that doing this are employees of the Residence group. I have observed how instances and have been able to document one, and in both cases ones I talked to the perpetrators they said the worker for Residence. Since they both had key access to the basement of the Cabrillo Hotel, I find that explanation very believable. It appears that Eric is using San Pedro Clean

The first shot below is one of Eric's employees dropping off a couch like they drove up the alley and dropped the mattress in another dumpster. I personally observed at least one of the rolls of carpet in the foreground of the same shot came out of the back of a pickup truck driven by another of Eric's employees. The other shots are indication of how this alley has looked over the last year due to a lack of dumpster capacity and furniture and mattress "magically"

Hi Eric,

I wish it were that simple.

We have seen an increase in illegal dumping in the alley, the problem we have is that when we lock the dumpster people break the locks at night, not to mention the furniture that magically appears. But, I don't need to tell you, your stuck looking at it as are we. Our plan is to install cameras and signage to try and catch the dumpers, until then, we do have employees checking and cleaning the alley. The bar does pay a recycler to take away their bottles, under normal circumstances the can is more than adequate, as it is emptied three times a week. We want to get a handle on this as much as you do, it's not good for anyone.

Thank You,
Eric
